

Mentor Generalist - This mentor is used as a resource to support on site practical strategies with programs in accreditation as well as programs such as child care, family child care, drop-in care, out of school care, preschools, headstart and others looking to enhance the quality of their overall program. Do you have experience working in an accredited center? Do you have a minimum of five years direct early learning experience? Do you currently possess education and/or have provincial certification in Early Learning and Care? Do you like to share your experience with other early learning professionals? If you answered **yes** to some or all of these questions, then you may have the qualifications to become a mentor.

Mentor Specialist - Do you have an area of expertise, extensive experience or specialized training related to the education, health, inclusion or care of young children? Do you possess unique knowledge that could be shared with professionals and parents? Do you currently facilitate programs related to work with young children and their families? Do you possess unique cultural information you would like to share? If you answered **yes** to these questions, then you may have the qualifications to be a mentor specialist with our agency. Please contact our agency for further information and discussion of your qualifications.
