Contract # 11-4-5-1

ARCQE Presents

Math is More Than Just Numbers

**Register
Early**

This 3 hour workshop combines theory on how a child's brain understands the world around them according to groupings and patterns which provide the bases for more advanced math skills. The participants will engaged in hands-on activities and brainstorming related to how to use everyday routine and materials to support math skills.

Participants will

Discuss results of "Who's Counting" Study (2009)

Discuss why adults have a tendency to be more reserved when it comes to formal math concepts.

Discuss related progression of numeracy skill and review vocabulary to support advanced math concepts in young children's learning

Review of math concepts with concrete application ideas for ECE professional
