ARCQE Presents

Children Love Science - So Can we!

**Register
Early**

Children have a natural curiosity about the world around them, we as caregivers have the opportunity to be children's first introduction to many natural and scientific concepts. This workshop focus on the early childhood professional's role in supporting science through interactions, materials and interest based planning. This 3 hour hands-on workshop will give strategies and theory to how children naturally learn through science experiences.

The workshop will explore

- Ways for early childhood professionals to be motivated to include science in the planning & experiences with children.
- How to add the elements of wonder, discovery and exploration into your curriculum
- Review the step of using the scientific method and related vocabulary.
- Hands-on activities that can be used in exploring science with children

Workshop supports CC Accreditation Standards 1,2 & 3 & OOSC Standard 2

Fee: \$50.00 PTL Program Member \$70.00 Non-Member • Handouts relating to the workshop. • Course certificate for successful completion of the workshop.
