# ARCQE Presents

## Quick Portable Activities in Out of School Care

Many times Out of School care programs require flexibility in their storage and program delivery. This session looks at strategies to develop and store prop boxes. The process of development and inclusion of curriculum ideas will be explored and relevant to the front line delivery of meaningful activities with children. This session includes the development of a "Construction" prop box to be used with the children the next day.

*Relates to OSC Accreditation Standards: 1 and 2*
